Oxley State School BYO iPad Acceptable Use Policy

This document defines the Acceptable Use Policy for students involved in the Oxley State School BYO iPad Program. Its purpose is to encourage the acceptable and responsible use of the facilities available to the students through the provision of clear usage guidelines. Students authorised to use the school's network also have Internet and Electronic Mail access.

Oxley State School's vision for technology use is *"Harnessing the full potential of technology to transform learning, preparing creative, critical thinkers for a changing world"*. In line with this vision, the aim of the BYO iPad program is to increase engagement and deepen learning for our students, through innovative and meaningful use of technology. The opportunities provided for our students in the BYO iPad program will enhance their creativity and empower them to develop essential skills for school, the workforce and life.

Oxley State School deems the following to be responsible use and behaviour by a student:

It is expected that students will use digital resources and network infrastructure for:

- Assigned class work and assignments set by teachers
- Developing appropriate literacy, communication and information skills
- Authoring text, artwork, audio and visual material for publication on the intranet or internet for educational purposes as supervised and approved by the school
- Conducting general research for school activities and projects
- Communicating or collaborating with other students, teachers, parents or experts in relation to school work, as supervised and approved by the school
- Accessing online references such as dictionaries, encyclopaedias, etc.
- Researching and learning through the Department's e-learning environment

Oxley State School deems the following to be unacceptable use and behaviour by a student:

It is unacceptable for students to:

- Use the IT resources in an unlawful manner
- Download, distribute or publish offensive messages or pictures
- Cyberbully, insult, harass or attack others, or use obscene or abusive language
- Deliberately misuse printing and internet resources
- Damage any electronic devices, printers or the network equipment
- Commit plagiarism or violate copyright laws (e.g., use of illegally downloaded games and music, and illegal sharing of games and music)
- Use unsupervised internet chat
- Send chain letters or Spam e-mail (junk mail)
- Access 3/4/5G networks on school premises (disable this feature prior to coming to school)
- Knowingly download viruses or any other programs capable of breaching the Department's networks security
- Handle another student's iPad without teacher authorisation
- **Access any social media applications, e.g., Messages, WhatsApp, Facebook**

In addition to this, Oxley State School states that:

- Students and their parents/guardians are responsible for the security, maintenance and integrity of their individual iPads and their network accounts. From home, students and their parents/ guardians are required to register their iPad with Oxley State School (using the Intune Company Portal) **prior** to connecting to the school's network using their MIS details (e.g., jsmit23). Under no circumstances should passwords be divulged to any other user on the system. If users have any reason to suspect that their account security may have been compromised or tampered with, it should be reported immediately to their teacher.
- **Accidental damage to an iPad is the device owner's responsibility. Students and their parents/guardians will be held responsible for the wilful and deliberate misuse or inappropriate behaviour resulting in damage to another student's iPad. In the event of a dispute regarding the cause of damage to an iPad, the Principal will be the arbitrator.**
- Information dispatched from the school network is a reflection on how the global community perceives the school. All students using the school's system are encouraged to show that they are positive ambassadors for Oxley State School. No obscene, inflammatory, racist, discriminatory or derogatory language should be used in electronic mail or any other form of network communication.
- Students using the system must not at any time attempt to access other computer systems, accounts or unauthorised network drives or files or to access other people's iPads without their permission and without them present.
- **Students must not record, photograph or film any students or school personnel without the express permission of the supervising teacher and the individual concerned. Identifying images, audio content and personal information must not leave the school (this information may be saved on the school server only), nor be stored on any non-EQ cloud storage (e.g. iCloud, Google Drive).**
- Students must gain teacher permission before copying files from another user. Copying files that belong to another user without express permission may constitute plagiarism and/or theft.
- Students will not copy software, information, graphics, or other data files that may violate copyright laws without warning and be subject to prosecution from agencies to enforce such copyrights.
- The school will educate students regarding cyber bullying, safe Internet and email practices, and health and safety regarding the physical use of electronic devices. Students have a responsibility to behave in line with these safe practices.
- iPads must have a heavy-duty protective cover at all times. All iPads must also be stored in a protective carry case when not in use. All iPads must be clearly identified with the student's name.
- The iPad must meet the minimum requirements as set out in the BYO iPad Program Parent Handbook.
- A unique passcode or passphrase is required to be placed on all BYO iPads.
- The required apps or programs must be loaded onto the iPad prior to the device being used. iPad apps are provided via the Intune Company Portal app.
- If the BYO iPad is 3G/4G/5G capable, it must be disabled in the school environment.
- VPN's must be disabled on the iPad, to ensure iPads can connect to EQ networks.
- **On arrival at school, iPads are to remain in school bags. Students must sit with their bags before school, until the 8:30am bell, when the bags are taken to a designated area under B Block.**
- Teachers and parents (in presence of the student) may perform checks to monitor that there is no illegal/unsuitable software applications and content, and to check the websites which are visited are appropriate. There will be consequences for inappropriate use including, but not limited to, loss of privilege of using the iPad for a period of time.
